“EXCEPTIONAL RESULTS FOR LONG & SHORT RESULTS”

NeoGold is a high-performance foil-to-fabric printer featuring advanced tech for precise jetted fluid placement, anti-collision safety, cooling, automatic ink, dual dryers, and a powerful servomotor. Equipped with Epson i3200 A1 printheads, it delivers rich colours and sharp metallic effects with unmatched consistency.

PRINT BEYOND ORDINARY

Neogold redefines foil-on-fabric printing with unmatched precision and brilliance. Engineered with magnetic suspension motors, advanced glue jetting, and high-speed drying, it delivers sharp metallic effects and vibrant colors on polyester and microfiber fabrics—perfect for high-impact fashion and decor
